Meeting Date: Week 10 (Wednesday 13 May)

Group Members:

- Zac Wastie
- Jay Segar
- Nikita Kravchenko
- Zexi Dong
- Sui San Cheung

Focus for this week.

The focus for this week was to look at the prototypes and start making the PowerPoint presentation

Progress Report

Week 10 started off with Jay saying that we should have a meeting this week. We all decided on Wednesday at 12:00. The meeting started at 1:30 and went for 15:32 minutes which was enough for us to have a look at the prototypes and give someone the responsibility on who wants to make the PowerPoint. Everyone like the designed of the home page just Sui recommended that we should put the logo next to where it says fly dream which was a good recommendation. Zexi then said that he will make the presentation which was good. With class back next week we can get the remaining work complete then get ready to present in week 12. Jay is also finishing the actual ghanntt chart which will show when we did the work compared to the proposed one where there is a massive difference.
